

ARENA FRAME

JSA Europe / Stage Company
Official Distributor of SIXTY82 in Latvia 🇱🇻 and Ukraine 🇺🇦
sixty82@jsa-stage.com

Sixty82 launches the new ARENA FRAME

This new concept is designed for venues which value the benefits of a quick and easy to build stage system. The straightforward design allows big stages to be built in the blink of an eye. A 200 square meter stage can be built in 90 minutes with a crew of 4 and a forklift. Because the frames are foldable, the system has a very small storage footprint. The ability to build the stage and rig at the same time greatly lowers the time needed to build any stage set.

4-WAY adapter

One size **fits all Adapter**

- One size fits all Adapter
- All different configurations can be made with the 4 way adapter.
- Rotatable in 4 orientations
- 500 kg 10% lateral load,
- 200x100 cm decks

World's fastest big stage system

Easy to use, no tools needed

Flexible in size and height

No loose parts, all configurations can be made with the same frames

Easy to store - small footprint

Entire stage is movable as one, this allows you to build the rig and stage at the same time
